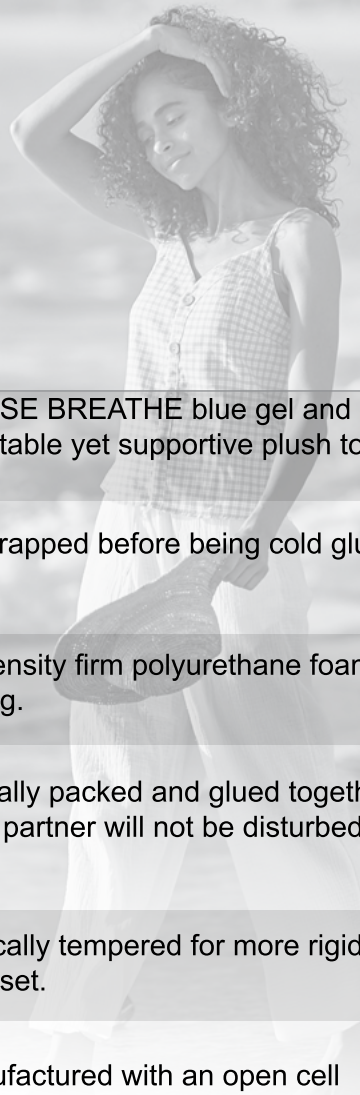
ORTHOPAEDIC SUPERIOR

EVOLUTION
Pocket Spring

Rest Assured
comfort for life



FACT	BENEFIT
Plush VISCOSE BREATHE sides	Luxurious moisture dispensing VISCOSE BREATHE blue gel and Plush Hyper Soft layers offer a comfortable yet supportive plush top and bottom layer.
Nested Pocket	The pockets springs are individually wrapped before being cold glued together.
Foam Encased	The spring unit is encased in a high density firm polyurethane foam as a reinforced edge support and zero sag.
Minimal Transfer	The Pocket Spring unit, being individually packed and glued together limits the movement transfer and your partner will not be disturbed if you toss and turn.
Electronically Tempered	The pockets spring units are electronically tempered for more rigidity and to ensure a minimal compression set.
Open cell technology	VISCOSE BREATHE blue gell is manufactured with an open cell structure which allows for ventilation ensuring an ultra hygienic sleep environment
Imported Ticking	The soft touch jacquard ticking is micro-quilted to ensure optimum heat dissipation.
Hygienic & Non Toxic	All foams used in the manufacturing process are produced in-house at Strandfoam Group and is completely stable, non-toxic and Hygienic.
Dual Sided	This mattress offers the benefit of dual sleeping surfaces for prolonged comfort and support.
